

Transition Sooke and Party Politics

As an organization, Transition Sooke does not affiliate with or promote a particular party or particular candidates in an election.

Instead, Transition Sooke supports all-candidate meetings from a position of neutrality. We support democratic dialogue in our transition toward a just, sustainable society.

As part of our mandate, Transition Sooke members are encouraged to take an interest in political parties and candidates. We recognize that members of Transition Sooke will make various political choices, and we value that diversity.
